

TECHNICAL INFORMATIONS : **BIOSPEED**

In only one product all the energy dog needs

Description.

Nutritional supplement dedicated to dogs submitted to intensive work or stress.

It contains Carnitine and Glycine to support liver functions, fatty acids metabolism, to reduce lactate production and to increase resistance to fatigue.

BIOENERGY contains aminoacids with functions of metabolism stimulator, detoxifying and activating gluconeogenesis.

Sugars content of BIOENERGY are a source of quickly available energy, while coenzyme Q plays an important role in the production of energy at mitochondrial level and also acts as antioxidant.

Cane sugar yeast (from *Saccharomyces cerevisiae*) increases nutritional value of the product because its content of sugars, high biological value proteins, B vitamins, natural enzymes, salts and unknown growth factors.

Ginseng and Fenugreek dry extracts act as tonic and make dog more active.

Indications.

Dogs submitted to intensive physical work (racing and coursing, sleddog, training, agility, hunting) or stress conditions.

Useful in all the cases of increased request of energy by organism (pregnancy, lactating, diseases, convalescence).

Ingredients: Dextrose, Maltodextrine, Cane sugar yeast.

Integration (for kg of product):

	grams
CREATINE	182,00
L-ARGININE	90,00
