

TECHNICAL INFORMATIONS

PISCIVOROUS

Description.

Nutritional supplement specifically designed to balance captive diet of animals fed by whole fishes. Fish contains enzyme thiaminase able to destroy vitamin B1 and fatty acids.

Because the high content of vitamin E (5%) this product acts as anti oxidant.

Vitamin B1 (4%) included in this supplement balances thiaminase content of fish.

Daily use of the supplement allows to prevent nutritional diseases very common in the species fed by fish only.

Geavet nutritional supplement for Piscivorous species also helps to restore vitamins lost in frozen fish.

Indicated for Marine mammals (Dolphins and Seals), Penguins, Pelicans, Cormorants and other aquatic birds.

Cane sugar yeast (from *Saccharomyces cerevisiae*) increases nutritional value of the product because its content of sugars, high biological value proteins, B vitamins, natural enzymes, salts and unknown growth factors.

Composition:

Dextrose, Cane sugar yeast, Vitamin E (50.000 mg/kg), Vitamin B1 (40.000 mg/kg), Vitamin C.
