

PRODUCT INFORMATIONS

ORNICUMA R - BREEDING

Nutritional supplement designed to stimulate reproduction of birds and to increase their breeding performances.

The presence of high dosage of vitamin E and arginine (an important amino acid for the production of spermatozoa) make this product a good supplement for breeding season stimulation.

The content of Ribose (a simple sugar very important for organism energy production) allows to birds to have a ready available source of energy to use during breeding time when body needs a higher energy level.

The formula contains Ginseng, well known for having a regenerating and tonic action on the body and for immune system stimulation activity.

Ornicuma R contains a high percentage of calcium which provides a proper forming of egg shell.

The content of Fructoligosaccarids in Ornicuma R formulation allows maintaining healthy the populations of beneficial intestinal flora such as *Lactobacillus* spp. and *Bifidus* spp. reducing potential invasion from opportunistic pathogens such as *E. coli* and *Candida albicans*.

Designed for Canaries, Finches, Psittacines.

Ingredients.

Sugars: Dextrose, Fructoligosaccarids, Ribose (30.000 mg/kg).

Integrations (for Kg of product):

Vitamins: Vit A (6.000.000 IU), Vit D3 (10.000 IU), Vit E (30.000 IU), Vit K (400 mg), Vit B1 (1.000 mg), Vit B2 (1.600 mg), Vit B6 (1.600 mg), B12 (3 mg), Panthotenic acid (2.500 mg).

Aminoacids: l-Arginine (15.000 mg), l-Lysine (7.500 mg), l-Triptophane (800 mg).

Minerals: Calcium gluconate (10.000 mg), Selenium (25 mg).

Herbal extracts: Ginseng (30.000 mg).

Guaranted analysis:

Crude proteins 6,9%, crude fats 1,4%, crude fiber 0,4%, ash 0,4%, moisture 6%.
