

TECHNICAL INFORMATIONS

B-CALCIUM

Description

Calcium carbonate based supplement designed for all the species fed by high level phosphorus foods (vegetables and insects).

It's the ideal supplement to balance calcium/phosphorous ratio in the diet of tortoises, lizards and other vegetables and insects eaters species.

B-Calcium contains vitamin C and all the group B vitamins.

It doesn't contain vitamin D3, to reduce the risk of hypervitaminosis, very common in the species exposed to sun rays or U.V. lamps light.

It contains Spirulina, the well known alga, giving important nutritional elements (proteins, β -carotene, minerals, etc.).

Cane sugar yeast (from *Saccharomyces cerevisiae*) increases nutritional value of the product because its content of sugars, high biological value proteins, B vitamins, natural enzymes, salts and unknown growth factors.

Composition

Calcium carbonate (55%), Dextrose, Maltodextrine, Cane sugar yeast, Spirulina.

Integration (mg/kg):

Vit. C: 5.000; Vit. B1: 500; Vit. B2: 600; Vit. B6: 300; Vit. B12: 12 mcg.

Directions for use:

Green foods: one measuring spoon (2 gr.) every 100 g of food.

Insects: allow to insects to be covered by B-Calcium powder, leaving them some minutes inside the product, before to give them as food to reptiles or other insectivorous species.
